Revised Estimate

1966 Corvette 1-16-15

- Body & Paint (1) Remove front end and replace with new one, remove 2 rear fenders and duck tail on rear of car, install 2 rear fenders and repair 3rd brake light holes. Address all cracks + fitting of new parts + doors. Prep car for painting 2 tone, cut + buff as needed. Install new weatherstrip on doors + hood. Detail car when complete.
- Interior (2) Will be leather seats, new door panels, carpet + underlayment, clean dash area, new glove box liner, will be done by Mc Master Auto Upholstry. SAR will remove seats.
- Engine (3) Remove engine, owner supplied another block + heads. Remove transmission + driveline, when new engine is complete, we will install it. Engine Rebuild by Bettanini's Machine.
- Transmission (4) No longer using Tremie 5 sp. We will check 4 sp thru in the case for operation.
- Exhaust system (5) Owner supplying parts, Exhaust manifolds, a side exhaust system. SAR will install.
- Gauges + clock (6) Remove cluster + clock, send back to Red Line Gauge to refurbish, re-install.
- Bumpers (7) Replate original bumpers, owner will supply missing one, all 4 will be replated to match.
- AC Kit (8) Kit will be from Vintage air and SAR will install.
- Chassis (9) SAR will remove body and transport chassis to Precision Stripping + coatings. Phil will disassemble, clean + prep for powder coating all parts pertaining to chassis. Trailing arms, rear end, half shafts, steering box, front end bushings + steering parts will all be new. He will reassemble using US made bearings + seals. New gas + brakes ^{lines} will be installed. New Calipers + pads installed. New bushings on control arms.
- Misc. Exterior parts (10) Emblems, weatherstripping, gas door, door handles, misc. rubber parts, body mount kit. Mirrors int. + exterior.
- Power windows (11) Install power windows, RAR glass + clean + lube tracks.

(2)
