RE: 126612

Dear

Thank you for your letter of inquiry regarding your 1964 356C.

I have enclosed a copy of the original Cardex for your 356C. This is the information as it was given to me from Germany. This is all the information which we have on record regarding your vehicle. As you can see, it lists the VIN 126612, the Motor Number 810321 and the Gear Box Number 71547 that your vehicle was originally equipped with. In addition, your vehicle was equipped with a black leather interior and a condor yellow exterior (color 6010B). Your Porsche was also equipped with PhÖnix 165-15 tires. The options your 356 were equipped with are listed as follows:

1. Electric sunroof;
2. Chrome wheel rims; and
3. Blaupunkt Frankfurt radio with two speakers and antenna.

Thank you for your inquiry and thank you for your patience in waiting for our reply. Should you require additional information, please call me directly at (702) 348-3258.

Sincerely,

WALTER WALLACE  
Owner Relations Representative

**RE: 126612**

Dear

Thank you for your recent request regarding the original manufacturing information for your Porsche. Enclosed is a certificate which gives all of the available information pertaining to your car.

We would like to take this opportunity to tell you about the Porsche Classic Parts Program. Porsche is unique among all auto manufacturers in that we offer parts for models back to 1950. Within the Porsche parts system there are special procurement and marketing people who are involved in sourcing, manufacturing, ordering, and cataloguing parts for Porsche types 356, 914, and 911 (through 1973). Parts in this program can be purchased through all authorized Porsche dealers in the United States.

We hope to have been of assistance to you in building the history of your Porsche. If you need further information, please do not hesitate to contact us.

Best regards,

Howard G. Adams
