Dear James,

Thank you for your letter of August 24. As you can tell from the paint number, 6010 is a 1960 paint formulation. Had it been a standard color for T-6 cars it would start with 62 (or C 64). If you look at the chart on page 140, you will see that colors like Ruby Red, that remained in use had their numbers change with every model change.

Since the factory supplied data indicates your car was painted Condor Yellow, it was ordered that way. Porsche always has allowed custom paint colors. I have a 1987 911 that I special ordered painted Peru Red, a color used from 1974 - 1977.

Condor Yellow is pale not bright yellow, although it is distinctly different from Champaign Yellow. I hope this answers your questions.

Yours sincerely,

Brett Johnson
