 Subject: Alfa GTV Parts List
 Date: December 16, 2021 at 1:31 PM
 To: [REDACTED]

[REDACTED] have included a list of parts you need below. Please note that you will also need ST001 and ST000 Outer sill right and left @ \$125.61 each. These items are out of stock currently at Classic Alfa, though I strongly suggest you order all the other parts now as I don't need the outer sill panels until later on. Please also note my correct address, East N, not East End as previously used. I will be calling you to catch up with progress of the car and why you need the extra parts. Regards, Mark

From: M MC MMCMAIL@hotmail.com
Subject: Alfa GTV repairs
Date: December 16, 2021 at 2:09 PM

Hi [REDACTED] I sent you some pictures of the car during the disassembly process. I also sent you a parts list I took from Classic Alfa's website. I found additional work that should be done to the left quarter panel. It needs the wheel arch repaired correctly, as the previous repair did not fasten the outer arch to the wheel well. Also, it needs the radiator support rebuilt, as they also did not repair this correctly. Much of what you see in the pictures, is just patches pop riveted in place, with body filler over that. The floor patches were also just riveted on and added no structural strength to the car. the rivets used were made of aluminum and would not be suitable for a structural repair in any case. I have repaired cars in worse condition than this, so we will make it strong and beautiful again. I hope to speak with you in the near future, kind regards, Mark McDonald

Invoice #2

M MC <MMCMAIL@hotmail.com>
[REDACTED]

Sun, Jan 23, 8:18 PM

Hi [REDACTED] I've gotten the outer rocker panels welded onto the car, so the sill assemblies on both sides are complete. This will strengthen the car as well as give me a good foundation for the floor repairs. i will keep you updated as to progress.

I would appreciate it if you could pay me via PayPal or if you are in the area, drop me a check. I'm kind of in a bind since the panels took so long to arrive, and December was slow, business-wise. I appreciate your consideration. Kind regards,
Mark McDonald.

[REDACTED] GTV#2.docx

1969 Alfa GTV Invoice #2

1/17/22 Cut out Driver's middle sill and fit replacement panel	5.5hrs
1/18/22 weld middle sill, fit & weld A&B pillar extensions Driver's side	5hrs
1/19 Fit & weld Driver's outer rocker panel	8hrs

Subject: Alfa GTV Invoice #4

Hi  I am approaching the very last of the work, I hope to finish this week and return the car to Alfaman in Novato. There were some areas that needed additional attention, in particular poor repairs to the frame sections that support the anti-sway bar. I had to fabricate and reinforce those areas. i am working as fast as I can, to keep costs low, without sacrificing the integrity of the structure. Your car will be much stronger now. I will keep you informed, regards, Mark

GTV#4.docx
