Dear Albert,

1/ I am sorry that I was misled over the gearbox in Milan. They still say the box is a Bravo with offset shift but also maintain it is the box from the 250 F coupe. Not possible! So we have to reassemble the overdrive to the 250 GTE gearbox which we have here. This will be done on Monday.

2/ I have located a 250 GTE axle in England and hope to have a price today.

The shape is -

I think you need a Doano tank or better a tank built to suit the car.
