Dr. Baldhard G. Falk
Box 315
Belvedere, Calif. 94920

Dear Dr. Falk,

To date I have heard nothing from Dr. Manicardi about your car. I know it is in the manufacturing process, but do not have a completion date.

We are to receive only a limited number of the Spyders. I assume you discussed the price increase with Manicardi. He has not mentioned anything to me. The Daytona Spyder sells for \$25,500 in the U.S. I suggest you get price cleared with Manicardi.

Very truly yours,

Vern Keil
Vice President

Memorandum

To: Al Mohr
From: Dr. Baldhard G. Falk, Belvedere, CA
Date: 2/20/2003
Re: History of the Ferrari 365 GTB/4/Spyder, Serial Number 14,813

The Ferrari Owners Club called this the first US version factory original Spyder, delivered in March 1972 and featured in Emilia-Romagna Concorso, San Francisco 1987. This was an invitational event, and a commemorative medal was awarded to the car for its historical significance.

I ordered the car directly at the factory in April 1970. At that time, no U.S. version of the 'Daytona Spyder' was in production. A prototype, which I inspected at the factory, was not acceptable to me because it was merely a cut-down Berlinetta without the necessary stress modification for a sports racing car.

The colors I selected were 'Giallo Man O'War' for the body paint, 'VM 3104 VAUMOL, crushed grain' for the leather interior, and a matching convertible rag top.

I had the car flown into San Francisco from Milano and found several discrepancies which were corrected later: the rag top was black fabric rather than in the ordered beige color, and the paint job by Scaliatti was sub-standard.

The car participated in many Ferrari Owners Club events, including Virginia City Hillclimbs (first in September 1973), Sears Point Raceway, and Laguna Seca (last in August 1978, when the car was retired from racing and its body subsequently restored).

Subject: Sale of '71 Daytona Spyder Serial # 14813/ Sales Agreement

Mr. Al Mohr
Mohr Imports
999 Del Monte Boulevard
Monterey, CA 93924

April 10, 2003

Dear Al:

This e-mail will confirm our verbal agreement of today. I am selling to your company my 1971 Daytona Spyder, Serial # 14813. You have inspected and test driven the car, and it is sold to your firm as is. The gross price is \$ 315,000.00 and your sales commission is \$ 10,000.00. The net amount to me of \$ 305,000.00 should be deposited to my account at Fidelity Investments :

Baldhard G. Falk

You can make the deposit of the \$ 305,000.00 to my account at the Fidelity branch in your neighborhood. I can check on my computer when the sum has been deposited, after which time I can either mail you the endorsed ownership certificate or, probably better, hand it to you when you pick up the car. With the car I am giving you four extra Borani rims with Michelin tires, an English shop manual, and misc. other items related to the car. Advise in advance when you intend to pick up the car to make sure that I will be available.

Please reconfirm our understanding by return e-mail.

Best personal regards,

Baldhard "BF" Falk

FRIBERG FERTILITY

JAN FRIBERG, MD, PhD, FACOG | Infertility and Reproductive Endocrinology

Ferrari Daytona Spyder 365 GTS/4 #14813

I have known Al Mohr of Mohr Import Cars since the early 1990's. On a cruise to Monaco GP in 2001 I asked him to find a Daytona Spyder for me and in early 2003 he reported that he had found one on a small island outside San Francisco (not Alcatraz). Al Mohr acquired the car in April 2003 and looked it over at his shop in Monterey. The mouse hair dash and some leather was bleached. It was sent to Lupi of Modena who made it look new and sent it back to Monterey and had it installed so that I could take delivery at the Monterey car week in 2003.

The car was delivered new to Baldhard Falk in 1972 in exchange for a 330 GTS. Prof. Falk bought the 330 GTS new in 1967 but it never ran well. A suspicion was raised of an anomaly with the engine and Prof. Falk hired a company to disassemble the engine with the constant attention of an attorney. During the engine exploration metal pieces (screws) were found. Ferrari was legally challenged and forced to give a similar new car to Dr Falk. Since the 330 GTS was out of production a new 365 GTS/4 was given to Mr Falk. The 365GTS/4 was more expensive so he had to pay the difference in price out of his own pocket but he got a new car painted light yellow I believe but have not explored that to any extent. I was told that his wife hated the color. Then in 1975 at Laguna Seca during a race he lost the right rear wheel and had some minor damage to the wheel arch but that was an excuse to paint the car in the color it is today. Mr Falk sold the car in 2003 because he used it less and less.

When I took delivery of the car my wife and I spent the week after Monterey using the car in Napa and Sonoma Vally driving about 1000 miles. When I got the car it had 33,650 miles. During the 20 years I have owned the car we have added about 1,200 miles and it now has 34827 miles. Always in my heated living room next to the T.V. set and sofa it has certainly not been abused and has been well cared for by Autosprint LTD in Chicago.

Your sincerely,

Jan Friberg M.D., Ph.D.

Memorandum

To: Al Mohr
From: Dr. Baldhard G. Falk, Belvedere, CA
Date: 2/20/2003
Re: History of the Ferrari 365 GTB/4/Spyder, Serial Number 14,813

The Ferrari Owners Club called this the first US version factory original Spyder, delivered in March 1972 and featured in Emilia-Romagna Concorso, San Francisco 1987. This was an invitational event, and a commemorative medal was awarded to the car for its historical significance.

I ordered the car directly at the factory in April 1970. At that time, no U.S. version of the 'Daytona Spyder' was in production. A prototype, which I inspected at the factory, was not acceptable to me because it was merely a cut-down Berlinetta without the necessary stress modification for a sports racing car.

The colors I selected were 'Giallo Man O'War' for the body paint, 'VM 3104 VAUMOL, crushed grain' for the leather interior, and a matching convertible rag top.

I had the car flown into San Francisco from Milano and found several discrepancies which were corrected later: the rag top was black fabric rather than in the ordered beige color, and the paint job by Scaliatti was sub-standard.

The car participated in many Ferrari Owners Club events, including Virginia City Hillclimbs (first in September 1973), Sears Point Raceway, and Laguna Seca (last in August 1978, when the car was retired from racing and its body subsequently restored).

The restoration was done by Bill Di Carr in Bellflower, California, a specialty coachbuilder for the movie industry. The car body was completely stripped to the bare metal, factory-applied filler removed, and bare metal parts straightened and acid washed. The new color was an appropriate Ferrari red in lacquer finish. None of the panels had to be replaced, and all original trim was put back, except the backup light and the two rear side red lights (required by California) which I had removed. I also had two sharp and, therefore, vulnerable corners of the hood rounded. I had the dash re-covered with a black material manufactured by Bell Aircraft and similar in appearance but superior in quality to the original fabric. (I do have a bolt of the original fabric, bought from the factory, in reserve.)

The original black top is still in my possession, also an additional set of 4 Borani wire wheels.

After the restoration, the car has been sparingly displayed but regularly driven on the streets as well as in non-racing club events. The car has about 33,000 original miles.

Throughout, it has been regularly and meticulously serviced by Angelo Panari in San Francisco, a Maranello-trained master mechanic.

For documentation of original ownership see the listing of my name in the factory register for the "365 GTB/4 Versione Spyder" as reprinted in the annex of the book "The Ferrari 365 GTB/4 Daytona" by Pat Braden and Gerald Roush.

Motor Vehicle Repair Work -City of Chicago Required under Chapter 4-228, Municipal Code

- ☐ I REQUEST THE RETURN OF PARTS REPLACED
☐ I DO NOT WANT REPLACED PARTS RETURNED TO ME

You are entitled by law to the return of all parts replaced, except those which are too heavy or large, and those required to be sent back to the manufacturer or distributor because of warranty work or an exchange agreement. You are entitled to inspect the parts which cannot be returned to you.

You are entitled to a price estimate for the repairs you have authorized. The repair price may be less than the estimate, but will not exceed the estimate more than 10% or \$15.00, whichever is less, without your consent. You may waive your right to a written estimate and require that you be notified if the price exceeds an amount you have specified.

You may waive your right to an estimate which gives the repair shop the right to set the price without your permission.

Signature below indicates your selection: CHOOSE OR C

(a) I request an estimate in writing before you begin repairs. Signature _____

(b) Proceed with repairs but call me for approval before continuing if price exceeds \$ _____. Signature _____

(c) I do not want an estimate and you may set the price of repair. Signature _____ Date _____ Time _____

Total Revised Cost _____ Explanation _____

Date/Time Called _____ Phone _____ OK'd by _____

ALL REPAIR WORK AND ALL PARTS USED ARE
☐ WARRANTED ☐ NOT WARRANTED
FOR A MINIMUM OF 90 DAYS AND/OR 3,000 MILES

*ANY WARRANTIES ON THE PRODUCTS SOLD HEREBY ARE THOSE MADE BY THE MANUFACTURER. THE SELLER (ABOVE NAMED DEALERSHIP) HEREBY EXPRESSLY DISCLAIMS ALL WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND NEITHER ASSURES NOR AUTHORIZES ANY OTHER PERSON TO ASSUME FOR IT ANY LIABILITY IN CONNECTION WITH THE SALE OF SAID PRODUCTS.

I hereby authorize the above repair work to be done along with the necessary materials. You and your employees may operate above vehicle for purposes of testing, inspection or delivery at my risk. An express mechanic's lien is hereby acknowledged on above vehicle to secure the amount of repairs thereto. You will not be held responsible for loss or damage to vehicle or articles left in vehicle in case of fire, theft, accident or any other cause beyond your control.

OWNER Jan FRIBERG

The high voltage units are Marelli AEC 103 A are located in the engine compartment (right and left). The unit should not require any maintenance. If necessary, this should be performed only by the Marelli agencies.

With the key turned in II position, the unit makes a very faint noise, which can be noticed approaching the car to the high tension transistor unit.

MOHR IMPORTED CARS

*Featuring Fine Pre-owned Imported Cars Ferrari, BMW, Porsche,
Mercedes-Benz, Alfa Romeo, Jaguar*

Dear Jan,

Last Thursday we received all carpeting from Modena.
Sending balance of money Tuesday for all leather and fabric for passenger compartment 3500.00

No Labor.

Money wires from Bank of America and shipping Paid 250.00

Oil leaks in engine turns out to be four leaky cam cover gaskets.
(Enclosed is worksheet.) While we had the cam covers off we
went ahead and adjusted the valves. (Which was only an additional \$240.00)
heater valve that was leaking. They also replaced the hoses that lead to it.
Total of that bill is Paid 2008.68

Breaks:

To do the breaks total which includes rebuilding all four calipers,
four new break hoses, four new break lines and rebuilding of master cylinder
(I thought the labor price was reasonable.) 3762.00
See second page of fax

Change engine oil and filter,
parts 124.00
labor Paid 80.00
TOTAL: 9724.68

Other items you might give attention to:

Rear Transaxle (Slow Leaks)	Estimate	725.00
Rear Suspension bushings looked worn but not dead yet.	Estimate	2200.00
New or Rebuilt shocks for:		300.00 each

Detailing:

70 to 80 hours of detailing for show readiness.
(30 to 40 hours would be the minimum. I always like to do a little more.)

By the way, doing a yacht trip next year. Stella and I married 40 years.

By the way, doing a yacht trip next year. Stella and I married 40 years

1971 Ferrari 365 GTB/4 Spyder S/N 14813

Weak points:

- Drivers seat needs leather work (Should do both.)
- Panels and Console need a big cleaning and some dye work.
- Rear Engine seal needs replacing.
- Small leak in Trans-axel.
- Smog pump has bearing noise. (Pump does work with belt in place.)
- Ride is hard, shocks needs rebuilding.
- Exhaust gasket leaks. Becomes less noisy when engine heats up

Positive Points:

- Original Owner. Only 33k miles. (Real.) Owner picked car up in Modena. Had car flown from Milan. All documentation.
- Dash looks very good. Done with Bell Aircraft material.
- Original billing from factory. All paperwork.
- Original leather pouch with books and all manuals.
- 5 or 6 different owners manuals. (Some items I didn't even know came with the Daytona.)
- Extra set of Borrani wire wheels. Need to be re-done.
- Paint will look very good after a professional detail.
- Perma tune ignition works very good.
