

Your type of E-Type?

THE RIGHT TYPE OF E-TYPE

Eagle Engineered

The options and enhancements originally developed for the fabulous Eagle E-Type, now available as a series of upgrade packages or in individually tailored combinations. The perfect way to create the car of your dreams.

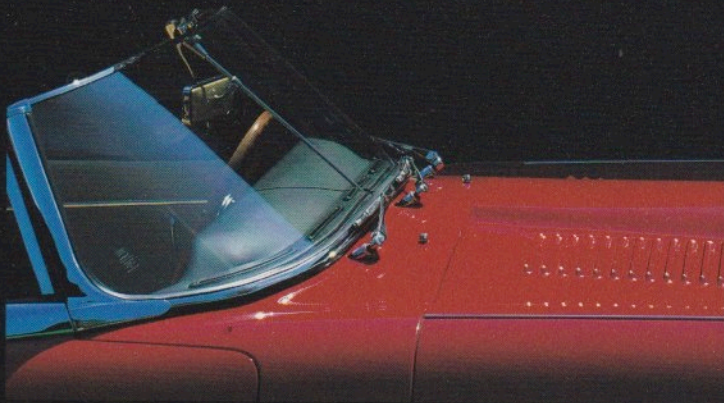

In their constant search for ways to develop the Eagle E-Type, our engineers have developed an enormous range of improvements that significantly enhance the reliability, safety, comfort, and driving satisfaction of Jaguar's original. We realised that many clients considering the purchase of Eagle Endorsed E-Types might wish to have access to the same comprehensive list of enhancements so that they can enjoy the benefit of a car developed to their personal specification.

For these clients, we have developed the Eagle Engineered E-Type. This begins with a Classic specification, but we also offer three other recommendations of enhancement – the GT, Sport and SuperSport – exactly as suggested for purchasers

of the Eagle E-Type itself. Naturally clients can select individual items from within these groups, so the car precisely meets their requirements.

Clients opting for an Eagle Engineered E-Type can commission their preferred enhancements either at the time of their original purchase or after having enjoyed an Eagle Endorsed E-Type for any length of time. Many of the E-Types we currently stock for sale have already benefited from various individual upgrades and some have already received a full Eagle Engineered package.

Each car in this range is fitted with an exclusive Eagle Engineered E-Type numbered plate and specification plaque and is of course provided with a two year guarantee.

Classic specification provides maximum reliability, durability, and usability while adhering closely to the specification and feel of the original.

ELECTRONIC IGNITION
PERFORMANCE SPARK PLUG LEADS
RE-JETTED CARBURETTORS
MODERN FUEL PUMP
MODERN COOLING SYSTEM
KEVLAR REINFORCED HOSES
UPGRADED HEATING SYSTEM
PERFORMANCE SHOCK ABSORBERS
STAINLESS STEEL EXHAUST
STAINLESS BRAKE HOSES
BRASS HEADER TANK
HALOGEN HEADLAMPS
ENDURANCE BATTERY
WIDER WIRE WHEELS AND
MODERN TYRES
CAVITY WAX BODY SHELL
TREATMENT

The GT specification provides enhanced capability in all road conditions and is often considered as offering the perfect balance for a touring car.

GT TORSION BARS AND SPRINGS
GT ANTI ROLL BAR AND BUSHINGS
ADJUSTABLE FRONT RIDE HEIGHT
BILLET ALUMINIUM STEERING MOUNTS
SPORTS STEERING WHEEL
PERFORMANCE AIR FILTER
HIGH SPECIFICATION
CHARGING SYSTEM
HARMONIC CRANKSHAFT DAMPER
HIGH SPECIFICATION
ALUMINIUM RADIATOR
TWO STAGE LIGHTWEIGHT
COOLING FAN
SILICONE WATER HOSES
OVERSIZE FRONT BRAKES
HIGH POWER BRAKE SERVO
PERFORMANCE TYRES

The Sport builds further on the GT specification, adding improved performance, high speed cornering ability, enhanced chassis communication and more powerful braking ability.

FULLY LIGHTENED AND
BALANCED ENGINE
BIG VALVE UNLEADED
CYLINDER HEAD
LIGHTWEIGHT TAPPETS
AND COSWORTH SPRINGS
SPORT CAMS
GATED ANTI SURGE SUMP
REVISED ENGINE MOUNTINGS
STAINLESS TUBULAR
EXHAUST MANIFOLDS
STAINLESS BIG BORE
EXHAUST SYSTEM
SPORT SUSPENSION GEOMETRY
SPORT STEERING GEOMETRY
POLYURETHANE SUSPENSION BUSHES
VENTED FRONT BRAKE DISCS
BRAKE BIAS ADJUSTMENT VALVE
BRAKE COOLING SYSTEM
EXTRA OFFSET WIRE WHEELS
HIGH POWER HEADLAMPS

Embracing everything in the Sport specification, the SuperSport takes things to the ultimate level, fully retaining the character of an E-Type, but combining this with the capability of a modern supercar. An increase in power of 50% compared with the original results in breathtaking acceleration, with handling and braking to match.

For more information about any of the Eagle range of E-Types you can call Henry Pearman on 01825 830966, visit our website at www.eagleetypes.com or visit our workshops and stunning air conditioned showrooms at Eagle E-Types, Brookside Farm, Tinkers Lane, Hadlow Down, East Sussex TN22 4ET.

As well as building the illustrious Eagle E-Type, we offer two other fabulous ranges – Eagle Endorsed E-Types, and Eagle Engineered E-Types – permitting our clients to choose the perfect car for their requirements.

Eagle Endorsed

Superb E-Types, selected after the most careful consideration, but only allowed to bear the coveted Eagle badge after undergoing a further painstaking series of tests and checks.

After twenty years of unswerving dedication to E-Types, we are perfectly placed to identify and acquire the very finest examples, whether in magnificent original condition or having been restored to exacting standards. However, even cars in fine condition may need a little care before being offered to our discerning clients, who rightly expect only the best from us. Before these cars are made available for purchase, they are comprehensively checked and tested. Specifically for Eagle Endorsed E-Types, we have generated a

checklist of 100 points, covering every aspect of the car, including all electrical and mechanical functions. Naturally, any faults discovered, however minor, are immediately rectified. At the same time, a comprehensive Eagle 3-yearly service is carried out.

Only when this process has been completed to our engineers' complete satisfaction is the car fitted with its Eagle Endorsed E-Type badge and provided with a fully detailed report, Eagle service books and cavity wax injection certificate and a two year warranty.
