JAGUAR DAIMLER HERITAGE TRUST

This certificate was issued by the Jaguar Daimler Heritage Trust, which is a subsidiary company of Jaguar Cars Limited.

The JDHT was formed in 1983 with the aim of maintaining for the nation a permanent collection of motor vehicles manufactured by Jaguar and its predecessor companies, under the marque names of Swallow, SS, Jaguar, Daimler and Lanchester.

The Trust also maintains an archive of historical records of these marques, and provides information to owners and enthusiasts.

The information on this certificate is taken from an original Car Record Book. All the relevant information from the original records has been included on the certificate.

Please note that we have researched the records simply from a chassis or other number or information as quoted to us by the client named on the certificate. The JDHT accepts no liability if incorrect numbers have been provided by the client. We have not inspected the car which has been researched. While this certificate confirms the original specification of a particular car from the chassis number, the certificate is not a confirmation of the identity, provenance, originality, or present condition of a particular car. This certificate does not represent proof of ownership of a car.

Whilst every care is taken to ensure the correctness of information supplied, neither the Trust nor any associated company will be held liable for any errors or omissions or the consequences thereof.

The Production Record Trace Service is available for SS and Jaguar cars from 1931 onwards, as well as some Swallow-bodied cars (1931-1933), and Daimler cars from circa 1959 onwards; there is limited information on some earlier Daimler cars, from 1953 to 1959. This Service is only offered for cars which are more than ten years old.
