

Lotus Eleven Sports

Chassis Number 234, Engine number 107861

February 9, 2016, I was able to go over this car completely at its current location in Philadelphia, Pa.

My comments:

This Eleven has been updated to Club specs with the installation of a Coventry Climax FWE #7594. Date of conversion currently unknown.

Chassis plate measures 2 $\frac{3}{4}$ " x 1 $\frac{1}{2}$ ", is embossed and has been stamped with stamps found on other similar original chassis plates. It is authentic.
